## **COURSEWORK**

### **UNDERGRADUATE**

Classical Mechanics

Ordinary/Partial DEs

Electricity and Magnetism

Computational Physics

Object-Oriented Programming

Quantum Mechanics

Statistical Mechanics/Thermodynamics

General Relativity

Solid-State Physics

### **GRADUATE**

Quantum Mechanics I

## SKILLS

#### **PROGRAMMING**

Over 5000 lines:

MFX

Over 1000 lines:

Python • Shell

Familiar:

Java• C++

## **OTHER PROFICIENCIES:**

MS Office/OpenOffice/Google Suite

**Operating Systems** 

Windows (DOS 6.0- Win10) • Mac OSX

Debian Linux/derivatives • Scientific Linux

## RESEARCH

### URI GRAVITATIONAL WAVE GROUP

#### UNDERGRAD RESEARCH

Oct 2018 - Present | Kingston, RI

Worked with Prof. Coyne to create a computational cluster from consumer electronics using MPI to facilitate running large-scale gravitational wave data locally versus finding time on off-location clusters.

### MIT HAYSTACK OBSERVATORY

**REU SUMMER INTERNSHIP** 

Jun 2020 - Aug 2020

## **EXPERIENCE**

### URI

#### Undergraduate Teaching Assistant

URI Physics Dept, Spring 2018-Present

- Run recitations for PHY273, PHY274, PHY275.
- Responsible for grading weekly recitations and input of grades into online gradebook

## RHODE ISLAND NUCLEAR SCIENCE CENTER INTERN

July 2019 - Present | Narragansett, RI

- Assisted with regular maintenance of running 2MW nuclear reactor
- Repaired custom machine for gamma spectroscopy of radioactive samples running DOS and 98.
- Gathered data for experiment testing dead times of Geiger-Muller detector with various different radioactive sources.

#### **DENALI**

#### SALES ASSOCIATE

June 2017 - May 2019 | Wakefield, RI

- Assisted customers find the equipment necessary for their outdoor adventures
- Coordinated with other staff to meet and exceed internal goals
